

FOR IMMEDIATE RELEASE

CHICAGO – July 1, 2022 – [North American Steel Alliance](#) (NASA) announces the addition of our newest Operational Supplier, Bystronic to the Co-op as of July 1st, 2022.

Bystronic is a global leading technology solutions company in the area of sheet metal processing. The focus is on the automation of the complete material and data flow of the cutting and bending process chain. In addition to laser cutting systems and press brakes, Bystronic's portfolio also includes innovative automation, software, robotic welding, and service solutions.

“We are incredibly excited to support NASA’s Members with the finest value-adding equipment available to today’s modern Steel Service industry. With a deep history in providing innovative fabrication solutions to the Steel Service sector, Bystronic is a trusted and valued partner. This partnership with NASA is a great fit for both organizations and has been a long time coming. We are ecstatic that the time is now!”
– Brody Fanning – Vice President Sales, Bystronic.

“Bystronic’s makeup of service, products and quality makes them a strategic fit for NASA, and our 122 Member-Companies. As the industry evolves, more of our Service Center Members are fabricating and Bystronic’s reputation and footprint aligns with the need of our Co-op.” Ryan Thomas- Membership Manager
