

FOR IMMEDIATE RELEASE

CHICAGO – February 3, 2021 – [North American Steel Alliance](#) (NASA) announces the addition of three new Operational Suppliers to the co-op as of January 1, 2021, including:

[Allor Manufacturing](#) is the leading provider of custom designs and solutions in the manufacturing of Roller Levelers, Tension Levelers, Rolls, Backup Bearings and Conveyor Products. Allor provides Standard replacement parts, regrinds, rebuilds, upgrades and new machines to the steel and aluminum industries.

[BLM GROUP USA](#) is a global leader in tube and sheet metal processing solutions. With more than 60 years of experience, their product line includes laser tube and flat sheet cutting, press brakes, cold sawing, bending, end-forming, end-machining and wire bending machines. Headquartered in Italy, the North American location in Novi, Michigan, provides tube processing solutions to the United States, Canada, and Mexico.

[General Building Products](#) (GBP) provides industry leading LED lighting, ventilation, and thermal comfort solutions to NASA members across the United States and Canada. With an exceptional in-house engineering and design team, GBP takes the guesswork out of facility improvement projects. A "brand agnostic" approach to product sourcing allows them to ensure the best solutions built around a customer's application, goals, and budget.

"I'm pleased to welcome Allor Manufacturing, BLM Group, and General Building Products to the NASA network of Preferred Suppliers. These new Operational Suppliers provide key products and services utilized by NASA Members and further strengthens the NASA Community" said Mike Wagner, President of North American Steel Alliance.
